9/9/2011 -ADSC Rocky Mountain Chapter Meeting Minutes

**Call To Order:** The meeting was called to order by Charles Braun at 11:30 a.m.

**Review and Approval of Prior Meeting Minutes:** Minutes were approved as read.

**Treasurer Report:** \$9764.64 was available in the Chapter's account. Since our last meeting 5,886.79 was deposited into the account and 3,895.56 was withdrawn. Activity on the account was the result of the Golf Tournament which netted a total of \$1991.23.

### **Old Business:**

**Drilled Shaft Seminar:** The 2012 ADSC/DFI Drilled Shaft Seminar has been officially slated for Denver in September of 2012. Coggins & Sons will be championing the event. The Chapter will support National ADSC and Coggins in their efforts. National/DFI will be selecting a hotel & dates for the conference by the end of this year.

**Bylaws:** Before National can approve the Chapter's bylaws, they need a copy of the Chapter's Articles of Incorporation to verify the tax verbiage within the bylaws is in line with Colorado's non-profit designation. Once we have clarification on this issue, the Chapter will be able to move forward with voting. Charles volunteered to obtain the Articles of Incorporation from the State and send it to National for review.

**NHI Educational Seminars:** National provided a list of available NHI courses with associated costs to the Chapter for review. Courses are available through National upon request from the Chapter.

**Clay Shoot:** The CAGE/RM Chapter sporting clay shoot took place on August 27<sup>th</sup> at Kiowa Creek Sporting Club. Chris Sammon reported the event was well attended and everyone had a great time.

**Golf Tournament:** Our *first* annual golf tournament last Friday was a **HUGE** success! Over 30 people representing 13 companies signed up to play and we had a total of 16 companies sponsor the event. A majority of players and sponsors attended a cookout at Williams Form Engineering prior to the tournament.

Breakdown of awards as follows:

First Place Team: Yeh & Associates - Score of 61  
Second Place Team: Malcolm Drilling - Score of 64  
Longest Drive: Rick Gomez - Dencol Steel  
Longest Put: Lisa Rasband - Malcolm

Cont'd.

The Chapter would like to acknowledge and thank the following tournament sponsors:

Hayes Drilling, Williams Form Engineering, Malcolm Drilling, Nicholson, Construction Company, Hayward Baker, Bit Brokers International, Mays Construction Specialties, TEI Rock Drills, ChemGrout, Champion Equipment Sales, Pipe Industries, Schnabel Foundation Company, Coggins & Sons, Inc., C&M Manufacturing, Con-Tech Systems, Load Test

### New Business:

National Update: National ADSC 2012 Equipment & Conference will be held from March 14<sup>th</sup> thru 17<sup>th</sup> in San Antonio, Texas. More information on the expo and upcoming National events can be found on ADSC's website at [www.adsc-iafd.com](http://www.adsc-iafd.com).

2012 DROS: Denver is being considered for next years annual Drill Rig Operating School (DROS). During ADSC's Summer Meeting in Charleston, South Carolina, the Drilled Shaft Committee asked the Chapter to look into potential sites to hold the annual 2012 Drill Rig Operating School (DROS). This topic was well received at the meeting. Charles will look into this and report back to National with findings by the end of September.

2013 Utah AER-Micropile Seminar / Chapter Meeting: There's interest in holding a 2013 Anchored Earth Retention Seminar and/or Micropile Seminar in Salt Lake City, Utah. This information will be relayed to the AER/Micropile committees at the next National meeting. Nicholson offered to host a Chapter meeting in 2012. Dates TBD.

Chapter Business Plan: At the request of National, the Chapter will begin creating a business plan for 2013. Charles, Braun, Kyle Vanderberg and Glenn Patterson will head this effort up.

Next RM Chapter Meeting: The next Chapter meeting will be held at Hayward Baker's Office in Broomfield, CO. Date and time TBD.

Thermally Active Geotechnical System – Air Force Base Project: A study has been proposed regarding Energy Piles which would include geothermal loops inside a drilled shaft. The study would cover integrity testing and constructability. The Chapter has expressed interest in funding this project. Karen Henry w/ US Air Force Academy is managing the project and will be in contact if use of outside funding is approved.

Open Discussion: None

Meeting Adjourned
