We *highly recommend* using this template as guide to ensure your advertisement does not lose any critical elements in the gutter or in the trimming process.

LAYOUT INSTRUCTIONS

**MARGINS/SAFE AREA:**  
All critical elements (text, images, graphics, logos, etc.) must be kept inside the margins (blue box.) This will ensure that critical elements will not be lost in the folding and trimming process. Less critical elements, such as background images, may exceed past the safe zone.

**FOLD LINES:**  
These are the fold lines for the 6 page fold out. Keep critical elements away from the folds such as text and logos. For design purposes, background images and graphics can extend into this area.

**TRIM AREA:**  
We do not recommend having borders due to shifting in the trimming process, which may cause borders to appear uneven. Any elements close to the trim line will be lost in the trimming process.

**BLEEDS:**  
Make sure to extend the background images or colors all the way to the edge of the black outline.

**IMPORTANT**  
Please remove our guidelines/instructions before submitting your files, or else they will be printed. All text should be converted to outlines.
