Commitment to Excellence in Safety Award

- Allied Drilling Company

This ADSC member has been constantly evolving since they started business in 1962. The management team is deeply committed to ensuring that all employees are safe, by creating and enforcing strict safety protocols and operating as a drug-free workplace. The employees believe quality is a direct result of qualified individuals working safely together for a common accomplishment: Safe, Productive, and High-Quality Workmanship.

This Category III Contractor Member has been a consistent ADSC Safety Award Winner since 2016 managing to maintain a Total Incident Rate of ZERO for eight consecutive years. They are true believers that safety is everyone’s responsibility. Safety is a value at this company – not a priority. The employees are the driving force behind safety, and they believe that this safety mindset extends at home or at work, all year long.

This ADSC Member promotes “Safety by Choice” every day. Congratulations to Allied Drilling Company!
